

# Thank you for protecting our community

By choosing to get the COVID-19 vaccine, we are caring for the health of our neighbors, our families and ourselves.

## 3 Reminders:

**COVID-19 prevention is still important.** We all need to do our part to protect our community until everyone can get the vaccine and COVID-19 rates are low.

***Continue the 3 Ws:*** **Wear** a mask, **Watch** your distance, and **Wash** hands frequently.

**The vaccine is very effective at preventing COVID-19 only after all required doses.** Make a note

for your calendar:

Brand: Pfizer Moderna  
J&J (only 1 dose needed)

Date of dose 1: \_\_\_\_\_

Date of dose 2: \_\_\_\_\_

**It is common to experience side effects such as soreness, tiredness and headache for 1-2 days.** The vaccine cannot make you sick with COVID-19. If you have concerns, call your health care provider.
