

Thank you for protecting our community

By choosing to get the COVID-19 vaccine, we are caring for the health of our neighbors, our families and ourselves.

3 Reminders:

COVID-19 prevention is still important. We all need to do our part to protect our community until everyone can get the vaccine and COVID-19 rates are low.

Continue the 3 Ws: **Wear** a mask, **Watch** your distance, and **Wash** hands frequently.

The vaccine is very effective at preventing COVID-19 only after all required doses. Make a note

for your calendar:

Brand: ☐Pfizer ☐Moderna
☐J&J (only 1 dose needed)

Date of dose 1: _____

Date of dose 2: _____

It is common to experience side effects such as soreness, tiredness and headache for 1-2 days. The vaccine cannot make you sick with COVID-19. If you have concerns, call your health care provider.
